Location: Abuja	
Date Posted: 8 th October 2018	Recruitment Type: National (6-months renewable contract) Closing Date: 15 th October 2018

The International Potato Center (CIP) is seeking to recruit an agronomist/seed system specialist Project Associate (PA) to implement 'Nutrition Sensitive Kitchen Garden Interventions with Orange-fleshed Sweetpotato (OFSP) and Other Vegetables under 'Working to Improve Nutrition in Northern Nigeria (WINNN) Program'. This PA will be based in Jigawa State, with occasional training and supervision duties in Yobe State. She/he will work under the supervision of the CIP Country Manager (WINNN-Kitchen Garden Coordinator) and co-report to the WINNN Deputy Chief of Party.

International Potato Center (CIP): CIP is a not-for-profit international agricultural research-for-development organization with a focus on potato, sweetpotato, and Andean roots and tubers. Its vision is roots and tubers improving the lives of the poor. CIP is dedicated to achieving food security, improved well-being, and gender equity for poor people in root and tuber farming and food systems of the developing world. CIP works with partners to contribute high quality science, technology, and capacity strengthening for sustainable science-based solutions. CIP is headquartered in Lima, Peru, with staff and activities in over 30 locations across Asia, Africa, and Latin America. CIP is a member of the CGIAR Consortium, a network of 15 Research Centers and 16 Research Programs mostly located in the developing world and supported by more than 50 donor members.

The WINNN program: WINNN is an eight-year (September 2011—March 2019) program funded by the UK's Department for International Development (DFID) to improve maternal and child nutrition in five states of northern Nigeria namely Jigawa, Zamfara, Kebbi, Katsina, and Yobe. WINNN is designed to support the piloting of a set of evidence-based nutrition-specific interventions; micro-nutrient supplementation, community management of acute malnutrition (CMAM), infant and young child feeding (IYCF) counselling, and to support institutionalization of the interventions within routine healthcare.

The Project: The overall goal of this orange-fleshed sweetpotato (OFSP) led garden product project is to improve food and nutrition security and livelihoods for women and children, especially improved diet diversity in two of the five WINNN states implementing during the cost extension period. The project seeks to catalyze broad support for OFSP and its use in strategic initiatives including Infant and Young Child Feeding (IYCF) program (first cohort), mothers/care givers of recovered Severe and Acute Malnourished (SAM) clients in small scale food processing, school feeding, and wheat import substitution in commercial food processing in this region.

The International Institute of Tropical Agriculture on behalf of CIP seeks suitable Nigerian for the position below at the CIP project location in Abuja
